

To: Joint Steering Committee for Development of RDA
From: Susanne Oehlschläger, DNB Representative
Subject: Revision of 0.6 Core Elements

DNB thanks BL for this proposal. We agree in principle with the proposal and have the following amendments:

The list of the core elements should be moved to the appendices. We think that it is very important to have one complete list and don't believe that the designation of the single elements is enough.

We also propose to define the terms „cardinality“ and „instance“ in the glossary.
