Subject: Additional terms for Base Material in RDA 3.6.1.3 and Applied Material in RDA 3.7.1.3

DNB thanks the JSC Music Working Group for this proposal. We agree with the proposal and the suggested changes.

If the JSC accepts the Proposal 6JSC/BL/16, the exception for Microfilm, microfiche ... must be removed here.

In general, it is difficult and very complex to include all these and other terms in the Glossary. On the long run, the JSC must decide whether it will be possible to define "everything" in the RDA Glossary (which we don't think is possible) or whether RDA should refer to other (existing) glossaries for those terms that do not belong to the library and information sector.
